Summary: *The project is working. It only needs to be upload on the store.*

Project Comments

For this fourth part, we had to work on MP3 compression, but Robert told us that it wasn't mandatory, so we preferred to rework the others parts of the project.

This Period: Activities Completed

We finished the spectroscope part

We worked on the songs.

Next Period: Activities Planned

We want to rework the documents and to add the 8D method to our project.

We want to add filters to our songs.
